SUMMARY

Enthusiastic and results-driven B.Tech graduate with strong foundations in Cloud Computing, DevOps, and Software Development. Proficient in Python, SQL, Git, Docker, and Linux, Kubernetes with practical exposure to AWS services and deployment projects. Completed academic projects and internship training in cloud engineering, showcasing problem-solving and implementation skills. Seeking an entry-level opportunity to apply technical expertise and contribute to organizational success.

EDUCATION

B.Tech in Artificial Intelligence and Data Science - SRM Valliammai Engineering College	2025
Diploma in Mechanical Engineering - KET Polytechnic College	2022
10th Standard - Govt. Boys School	2018

SKILLS

- **Programming Language:** Python.
- **Operating Systems:** Linux.
- **Databases:** MySQL.
- **Version Control:** Git, GitHub.
- **Cloud Computing:** AWS Cloud (EC2, S3, RDS, IAM).
- **DevOps Tools :** Docker, Jenkins, Kubernetes.

EXPERIENCE

AWS Cloud Engineer (Trainee) – TATA STRIVE 2025

- Experienced in managing core AWS services like EC2, S3, RDS, and IAM.
- Skilled in configuring storage solutions, setting up databases, and monitoring resources using Cloud-Watch.

Data Science Intern 2024

- Gained experience in applying machine learning algorithms for real-world datasets.
- Worked on preprocessing, model development, and result analysis.

Projects

AWS S3 File Transfer System 2024

Built an automated file upload/download system using Python and Boto3, integrating secure and scalable cloud storage.

False News Detection 2023

Implemented Logistic Regression, Random Forest, and Naive Bayes to detect fake news by analyzing text and user behavior.

CERTIFICATIONS

- AWS Certified Cloud Practitioner
- AWS for Beginners
- Data Science Intern Certification

LANGUAGES

- English
- Tamil
- Telugu

Hobbies

- Playing Cricket
- Reading Books
- Writing Blogs
